SUMMER INTERNSHIP PROGRAM

CAPA Community Education Fund (CEF)

Summer Internship Program

TODAY'S INTERNS, TOMORROW'S LEADERS

THE PROGRAM

The CAPA CEF Summer Internship Program is a unique opportunity to gain firsthand knowledge of our democratic process by working directly in the office of an elected official or government departments and agencies in the East Bay and San Francisco areas.

The program is open to current high school sophomores and juniors that are residents of Contra Costa, Alameda, or San Francisco Counties of California. No previous experience is required, and this program is ideal for students that are eager to learn about our government, the democratic process and current events.

THE REQUIREMENTS

Interns are required to fulfill 100 hours in their elected official's office or public agency during the summer months, along with 10 additional community service hours. Each intern will also collaborate with their fellow interns to make a presentation at the Internship Graduation, held in August of each year, at the program's conclusion.

Internship placements are available at local, county, state, and federal levels. Completed applications must be submitted online or mailed to us no later than: ***Saturday, February 29, 2020.***

THE MISSION

CAPA CEF is a non-profit organization dedicated to the education of Asian Americans in the public affairs sector. We organize educational activities that actively promote the awareness and participation of Asian Americans in political and community affairs. CAPA CEF's mission includes promoting and supporting community service and leadership by Asian Americans in their communities and providing internships for Asian American students with local, county, and state public officials.
